

expanding our ambition

In January 2008, Witan Jardine became part of Ambition, a listed recruitment company with the same passion for excellence, a similar specialist approach and complementary international coverage.

Since then we have been preparing to bring the two businesses together, ensuring that we are able to fully leverage the benefits of the combined entity and seamlessly shift the business into a higher gear.

We have now started the process of more formally bringing Witan Jardine into the Ambition Group and will be using a transitional brand identity to help manage the integration. By mid-2010 we will move to using only the Ambition name in the UK market.

witan jardine

Founded in 1999, Ambition brings international reach to Witan Jardine, with market-leading operations in Sydney, Melbourne, Brisbane, Hong Kong and Singapore.

This international network will enable us to search with more breadth and depth for the right candidate for our clients. We are now perfectly positioned to tap into the global talent market that moves between London, Hong Kong, Singapore and Australia.

Our business will continue to have three areas of expertise:

banking & financial services

finance & accountancy

sales & marketing

Our new transitional brand identity signifies our direction, moving towards a consistent single global brand for communication, and a consistent standard of service excellence.

Ultimately it is about providing you with the best possible service, about working to be your recruitment partner of choice. We are growing with Ambition, developing a stronger, deeper offer that in turn will allow us to build stronger, deeper relationships across our client and candidate networks. We look forward to continuing to grow with you.
